

# CRAFTASTIC!

## Water Bottle Piggy Bank

### Supplies Needed:

- Plastic Water Bottle
- Hot Glue (regular glue can also be used instead)
- Permanent Marker or Paint for eyes
- Pink Paint
- Paint Brush
- Scissors
- Toilet Paper Roll

**\*\*Attention Parents: Adult supervision and assistance is required\*\***

1) Use a marker to draw a rectangle on the water bottle as shown in Picture 1.

2) Cut out the rectangle. This will be the slot used to put coins into your bank so make sure it is large enough to fit coins.

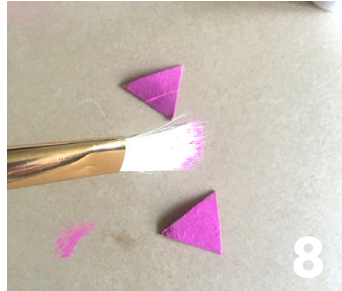

3) Paint the outside of the water bottle.

4) To make the piggy bank legs and ears, cut a toilet paper roll open as shown.

5) Cut the opened toilet paper roll in half. Save one piece for the ears. Cut the second piece in half again as shown. Use these smaller pieces for the piggy bank legs.

6) Paint the legs.

7) Once dry, use a marker or black paint to draw feet on the legs.

8) Take the unused half of the toilet paper roll and cut out two triangles to make the ears. Paint the triangles.

9) Draw (or paint) eyes onto the top of the water bottle.

10) Glue the ears and feet onto the water bottle as shown.

11) Take a picture with your creation and post it to Instagram or Facebook! Don't forget to tag us @officialcityofartesia!
