

CRAFTASTIC!

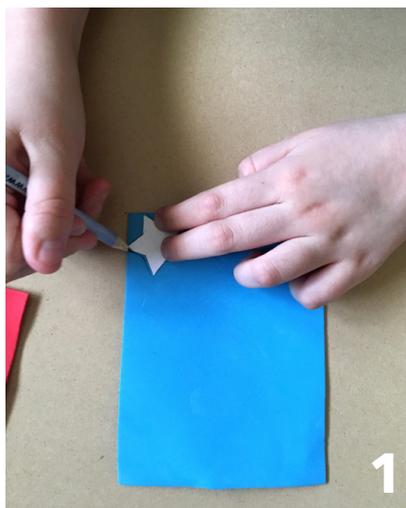

4TH OF JULY STARBURST CLIP

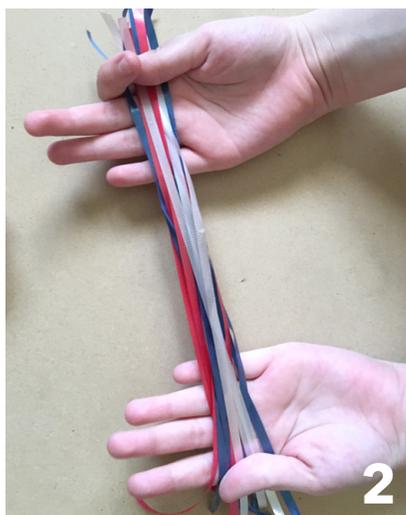

Supplies Needed:

- Red, White and Blue Colored Craft Foam Sheets (or Construction Paper or Cardstock)
- Red, White and Blue Curling Ribbon
- Hot Glue Gun and Glue
- French Barrettes (or Alligator Clips or any clip that has a flat surface that you glue items to)
- Scissors
- Printed copy of the attached star template (or you can draw stars freehand onto the foam sheets)
- *If you do not have craft foam, you could try using colored construction paper. You could also try using white card stock and color the stars with crayons or markers.

****Attention Parents: Adult supervision and assistance is required****

1. Print and cut out the stars from the attached star template (page 3 of this guide) You will need 3 stars, one red, one white and one blue. Use the stars you have cut from the template to trace the star shapes onto the colored foam sheets. If you do not have colored foam sheets, you could trace them onto construction paper.

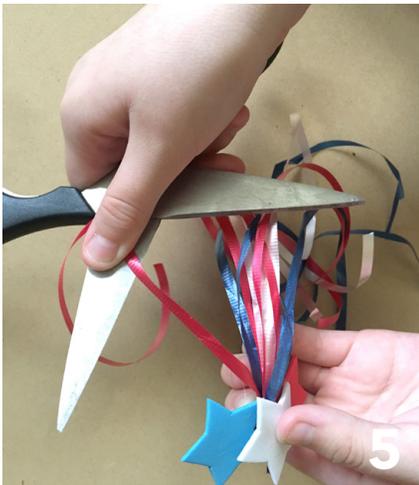

2. Create the ribbon bunch shown by cutting 12 inch pieces of each color ribbon (4 pieces of each color: red, white and blue).

3. Tie all 12 pieces together with a knot at one end.

4. This step should be done by an adult. Carefully, hot glue the knotted end of your ribbon bunch to the clip. Then hot glue three stars to the clip. Use one of each color.

5. Next step should also be done by an adult. Once the glue is dry, curl the ribbon. Grab your scissors and curl each piece of ribbon one by one. To curl firmly but slowly pull the scissor blade along the dull/underside of the ribbon as shown in photo number 5.

6. Once finished, take a picture with your creation, post it to Instagram or Facebook and tag us @officialcityofartesia!
