

CRAFTASTIC!

Egg Carton Seed Starter

Supplies Needed:

- Any sized egg carton
- Seeds
- Scissors
- Pencil
- Potting Soil

****Attention Parents: Adult supervision and assistance is required****

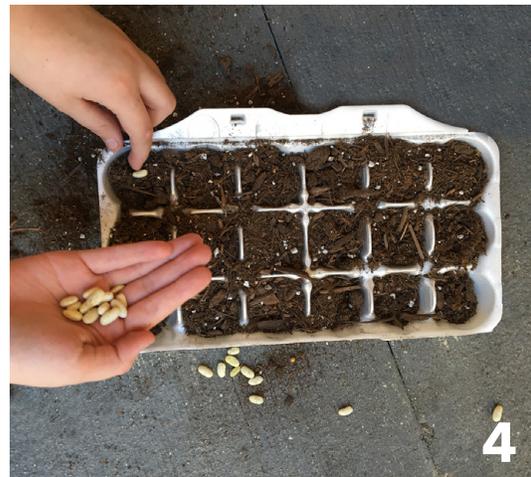

1. Cut out the top part of the egg container.

2. Turn the egg carton upside down and punch drainage holes into each of the egg shaped cavities.

3. Add soil into each of the egg cavities, filling each one up 3/4 of the way.

4. Add one seed to each of the cavities.

5. Cover the seeds with soil.

6. Water it, place it in a sunny spot and you're done! Give it a couple of weeks and wait until they sprout. Once the plant sprouts reach a couple of inches of height, transplant them to a bigger pot. Don't forget to take a picture, post it to Instagram or Facebook and tag us @officialcityofartesia!
