

Arctic Fox Handprint

Supplies Needed:

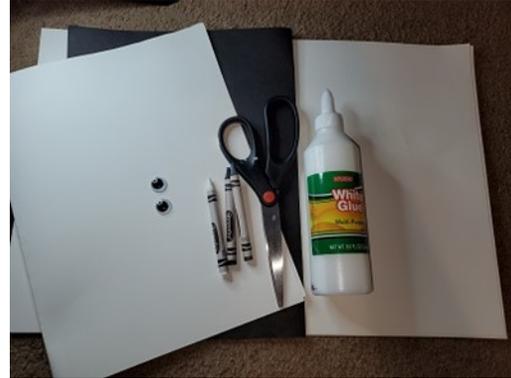

Construction paper (white and black)

Scissors

Glue

Wiggly eyes

Crayons (black, silver, and white)

Step 1

Step 2

Step 3

Step 4, 5, 6, and 7

Directions:

Step 1: Begin by tracing around your hand on white construction paper. Cut out the handprint.

Step 2: With white paper, cut out large 1 triangle for the head and 2 small triangles for the ears.

Step 3: Use the black crayon to make a rounded edge across the nose of the triangle and color in. Color the inside of the smaller triangles with the silver crayon.

Step 4: Glue the smaller triangles to the top of the larger triangles.

Step 5: Glue the handprint to the black construction paper, fingers down. Glue the face triangles to the side without the thumb. The thumb acts as the tail. Glue on wiggly eyes.

Step 6: Use the white crayon to make dots and small asterisks for the snowflakes across the page.

Step 7: Take a picture with your creation and post it to Instagram or Facebook! Don't forget to tag us @officialcityofartesia.
