Step 1

Step 2—4

Step 5-6

Step 1: Start by tracing a handprint– try to make the handprint a little puffier than you normally would!

Step 2: Cut out the handprint. Make sure you have a V at the bottom between each finger, rather than a curve.

Step 3: Next, you can fold down the baby finger towards the center to make one of the bunny arms.

Step 4: Then fold down the thumb towards the center for the other bunny arm.

Step 5: Cut off the middle finger so you're left with two finger "bunny ears".

Step 6: Use a pink marker, pen or pencil crayon to draw the pink parts of the ears. Then draw an oval for the rabbit's nose. Using a black pen, draw the rest of the face, whiskers, and mouth. Finally draw two little paws at the bottom of the handprint to make bunny's feet.

Step 7: Take a picture with your creation and post it to Instagram or Facebook and tag us @officialcityofartesia!
